Turf Fields

Mr. Roberts asked for an update on the problems with the new fields. Sprint Turf engineers have taken core samples to be lab tested for ground problems. The District believes there was poor workmanship, and deficiencies in the installation of the fields leading to the problems. Mr. Stuart said the test results should be completed in approximately two weeks. Then there will be conference calls regarding repairs. The District would rather not go to trial on this issue, but rather solve the dispute through mediation.

School Security

Mr. Roberts asked about the security company bid process, and the possibility of schools keeping their current Northstate Security guards if the District changes to Securitas. Mr. Cloney said if that occurred the District will request to be involved in the guard hiring process with the new company, but that was not part of the original request for service proposal. Mr. Stuart said bids came in for security and the Board is considering Securitas versus Northstate to provide security for the school sites. The Board's goal is to save money, but does see the value of maintaining the current security company who is doing a good job. Mr. Stuart said the contract must go to the Board for approval.

Riverbowl

Mr. Roberts gave congratulations to Mr. Woollard for the Shasta High School Riverbowl victory.

November Board Meeting

Mr. Levy said SSEA plans to sunshine contract articles for negotiation at the November Board meeting.

Adjournment

The meeting adjourned at approximately 4:00 p.m.
